Introduction from Lornette Daye

Welcome to the Finish Strong series.

As a former elite sprinter, Canadian National Team athlete, and coach, I know exactly what it feels like to stand on the starting line with the weight of the world on your shoulders. I know the sting of setbacks, the grind of daily discipline, and the pressure to perform at a world-class level.

But I also know the power of resilience, faith, and elite mental fortitude.

These materials are designed for you—the elite student-athlete navigating high-stakes environments, million-dollar NIL landscapes, global media scrutiny, and the immense pressure of expectation. Over the course of this journey, we will focus on building your identity, your brand equity, and your purpose beyond the scoreboard. My message to you is simple: no matter how the race begins, you have the power to Finish Strong.

Take time to reflect, prepare, and dominate. You are more than an athlete; you are a global enterprise and a leader.

Finish Strong,

Lornette Daye

AI in 2026: The Elite Landscape

As an elite athlete, AI is no longer just a tool for studying; it is a critical component of your brand protection, intellectual property, and financial strategy. From AI-generated deepfakes of your likeness to algorithmic contract analysis, you must understand how to leverage AI defensively and offensively.

REAL WORLD FACT:

In 2025, unauthorized AI-generated voice and video likeness (deepfakes) cost high-profile athletes an estimated \$400M in brand devaluation and legal fees. Protecting your digital IP is now as important as protecting your physical health.

Prompts for Defensive Brand Monitoring

> "Act as a PR crisis manager. I am a top draft prospect and a heavily edited deepfake video of me is going viral on X. Outline a 3-step immediate response strategy for my legal team and publicist."

> "Write a Boolean search string that my social media manager can use to monitor emerging negative sentiment or unauthorized use of my Name, Image, and Likeness (NIL) across global platforms."

Prompts for Contract & Equity Analysis

> "I am reviewing a term sheet for an equity partnership with a sports-beverage startup. Act as a venture capital advisor and list the 5 most common 'trap clauses' athletes overlook in early-stage equity deals."

> "Explain 'Right of First Refusal' and 'Perpetual Likeness Rights' to me as if I am 18 years old, and tell me why I should never sign a perpetual likeness clause."

Prompts for Offensive Content & Monetization

> "I have 2 million followers across platforms and want to launch a direct-to-consumer apparel line. Generate a 3-phase go-to-market strategy that relies on organic reach rather than paid ad spend."

> "Act as a top-tier podcast producer. I want to launch an audio series focusing on the mental health struggles of elite athletes. Give me 10 compelling episode titles and potential guest archetypes."

Prompts for Performance Analytics

> "Based on the following CSV data of my shooting mechanics and biometric output from the last 10 games, identify any statistical correlations between my sleep scores and fourth-quarter efficiency."

Closing Encouragement
